# Coolant Exchange Unit

**Coolant Exchange Unit—Designed with the user in mind.**

### Increase Your Profits

- Our 10-minute exchange process means no more waiting for the engine to warm up!

### Safety First

- Our “engine off” feature removes pulleys, belts, and fan blades from the safety equation.
- No additional ventilation required.
- Vacuum mode creates a “push/pull” exchange process allowing the technician to safely remove high pressure in a hot system.
- “Hands-off” transfer of used coolant to a bulk tank prevents spills and helps protect the technician.

### Simple to Operate

- Two clearly marked valves and an easy-to-read gauge make this machine very simple to use.
- Sight glass clearly shows the amount of coolant in the waste tank.
- One valve controls the flow of coolant; process is easy to understand—no special training needed.
- No electricity required. 90 psi shop air drives the exchange process, as well as the 2 gpm pump on the waste tank.

### Designed to Survive

- Impact-resistant polypropylene cabinet will not scratch or dent vehicle.
- Cabinet is impervious to chemicals commonly used in the shop.
- Large, inflatable tires carry a well-balanced platform easily across any shop floor.
- Easy to maneuver between bays and vehicles.

### Extra Design Features

- Two external new coolant supply tanks allow on-board storage of two different coolant types.
- Graduations on tanks show user the amount of new coolant on board.
- On-board storage of step adapters.
- Adapter kit included.
- No hoses to cut.
- 96” hoses can be neatly stored on unit.
- One-year warranty.

**No. 75700** – Coolant exchange unit. Wt., 180 lbs.

**No. 75115** – Replacement coolant 5-gallon tank.

**No. 75360** – Heavy-duty adapter kit. Links the two tanks for 14 gal. capacity to service class A vehicles. (Note: must have 7-gallon tank No. 75370).

**No. 75370** – Replacement coolant 7-gallon tank.

**No. 17490** – Protect your investment with a heavy-duty vinyl dust cover. Features corded seams for durability; medium gray color with CoolTech logo.

*Works on both pressurized and non-pressurized cooling systems*
