

TIF7201

Pocket IR Thermometer

Features:

- System-on-a-Chip (SoC) technology: compact and lightweight
- Backlit LCD display w/ dual readings
- °C / °F Switch and MAX function
- Auto power off after 15 sec.
- Battery level indication
- Distance to spot (D/S): 1:1

Applications:

- Automotive
- Electrical
- General home use
- HVAC/R

TIF7201

Pocket IR Thermometer

Specifications:

- Temperature measurement range:
-27° to +428°F (-33° to +220°C)
- Operating temperature range:
4 to +122°F (-10 to +50°C)
- Accuracy (Tamb=23±3°C):
±2% of reading or ±4°F (2°C)
- Resolution: 0.1 °F/°C
- Distance to Spot: 1:1 optical
- Emissivity setting: 0.95 fixed
- Field of View: 1:1
- Battery: 1-CR2032 lithium cell battery
