

TIF9035

Charging Scale and Manifold Storage Combo

In many service situations two tools are almost always sure to be found, the charging scale, and the manifold and hose kit. This TIF9035 allows the charging scale, service manifold and hoses to be stored and carried to the work site in one convenient package. A tough plastic outer case helps protect your manifold gauge set. A flat top and bottom surfaces make storage easy and convenient. The new TIF9035 limits the number of items that need to be carried to the job site.

- New molded design, easy to carry and store
- Integrated manifold and hose storage compartment
- Can be used with ALL refrigerants
- High weight capacity, up to 200 Lbs (100Kg)
